Not to be Missed!!
An Interactive **LIVE WAREHOUSE** exhibition

Modern Logistics Warehouse

30 June - 1 July 2010
Workpoint Entertainment,
Bangpoo, Muang Pathumthani

Breaking away from the traditional Materials Handling Exhibition, with its high overhead and limited quality audiences, an enterprising group of International companies has formed a consortium to organize their own private exhibition.

In this exhibition, visitors will be able to view a comprehensive range of storage systems, using fully operational forklift trucks. Using the original concept of having "live" exhibits, this will give customers a far better perception of how the equipment can be operated.

Besides being able to view the exhibits "live", there will also be a short individual 20-minute company presentations running throughout the 2 days so that visitors can have a deeper understanding of exhibitors.

HIGHLIGHT OF EXHIBITORS

BEUMER has specialized in the design and supply of material handling and packaging systems used in the warehouse. BEUMER, headquarter in Germany, has also the regional office in Thailand and will exhibit the Packaging Technology.

CoGri Asia, armed with more than 20 years of experience in design/build, construction and upgrading of industrial concrete floorings, will be showcasing floor tolerance measurement, high tolerance flooring technology, and refurbishment solutions.

Crisplant, a sorting solutions and service provider for modern logistic systems and material handling solutions, will showcase their innovative sorting technology and control systems.

Crown Equipment Corporation, the award-winning electric lift trucks provider will introduce the Wave, an electric order picker, for high rise shelving system together with their electric range of high rise reach trucks, with other equipment working, double deep and drive in displays.

ESI is a consultancy and provider of Interim specialist management to the Asian Supply Chain, Logistics and Warehousing Industry. From assisting clients throughout Asia, ESI will demonstrate the benefits of utilising global best practice in local warehouse design.

GREATWALL (1988) CO., LTD, with more than 30 years of experience in the field of insulator production, will display insulated wall and ceiling system for controlled-temperature warehouse.

Interroll, one of the world's leading specialists within the field of materials handling, logistics and automation, will have exhibits of live pallet and push back storage, fully operational with Crown trucks.

HIGHLIGHT OF EXHIBITORS

LOSCAM

LOSCAM provides high quality, efficient and environmentally sustainable returnable packaging solutions and equipment used to store and move products through supply chains. Loscam pallets will be used throughout the display area during the exhibition.

SSI SCHAEFER

SSI Schaefer, an integrated storage solutions provider will feature their new Schaefer Orbiter System, electric mobile racks, pick to light demos on live storage beds and will introduce WAMAS their new WMS system, for the retail/Dc industry.
